

PROJEX CO

Facilities Management

We have a demonstrated track record in delivering multi-faceted programmes across a range of criteria – over both the long and short term. Delivering through strategy, extensive planning and with a “finger on the pulse” approach, we specialise in executing facilities management across multiple sites nationally.

Recent key highlights include:

- Management of an entire building facility, including planning, tendering and construction to deliver accommodation requests as required.
- Leading the merger and consolidation of the state mailrooms to the appointment of an external provider in accordance with the overarching business strategy.

With an approachable and collaborative communication style, we have proven experience in swiftly engaging key stakeholders throughout the business from trade-based contractors to the company CEO, delivering specialist advice and proven systems.

By never losing sight of our client’s business mission and visions - we achieve results through planning, consistent monitoring, regular reporting and developing strong partnerships that achieves solid and measurable outcomes.
